That is right but we do not need to look at only one side. We all need to be accountable without exception. That is the way we can gain trust. ALU has been successful to win the only election in Amazon warehouse in JFK8. As you say the world is watching. Democracy should be the core foundation of the union. No one should be intimidated. What should be done to have a representative union should be done.

While we all are trying on every shift to recruit, represent and educate workers to get ready for collective bargaining and to sign our contract, we should not forget that ALU must be democratic.

Brima you called our law tees today stating I kicked out Conner and Cassio which is a lie stop with the bullshit there's only one union in the building and that reform ALU is not democratic it's a bunch a bull and I'm warning you now keep petitioning against ALU we will take legal action against you as well for false representation of a government certified union so I advise you to Stop ASAP or you will be served along with the rest of them.

10:38 PM

This is a betrayal of the first level.

So you need to be honest with yourself that the workers who voted fir the union need to be respected.

Be my guess and sue me.I will 100%win the case.And now a bigger scandal has just taken place: your irresponsible vice president has just stepped down because he was indicted by the federal law for strangulation of his former girl friend. You just appointed the secretary to be the vice president without consulting the workers.

What type of undemocratic leadership is this.The workers deserve a better leadership

constitution which no one is above and
that constitution is filed with the
Department of Labor federal government
stop lying and playing the fence I just filed

This is proof right here. You can not deny it. We need responsible leaders that will represent the interests of the workers and not special interests.

11:25 PM

Once again all 8,300 plus workers of JFK8 are only represented by one union ALU which is certified by the federal government reform ALU is bogus and once again legal action will be taken again anyone who uses ALU under false pretenses so once again you've been warned

11:28 PM

I'm not here for the games enough is enough I'll be at the building tomorrow if anyone has any questions along with officers of the ALU

11:29 PM
